SUBJECT: CAA Shared Services e-Forms 2024-25 FY April Update

A new milestone has been achieved. Over **22.38 million** county customized PDF forms have been downloaded or viewed by taxpayers using the e-Forms system as **04/01/2025**! The e-Forms Platform is fully operational and available to taxpayers 24/7/365. All 127 BOE and CAA forms for 2025 lien year were available to taxpayers and county staff on **December 17th, 2024**. Counties can publish **127** PDF forms for lien years: 2014, 2015, 2016, 2017, 2018, 2019, 2020, 2021, 2022, 2023, 2024 and 2025 to taxpayers.

This system allows counties to expand Assessor Public Services and Taxpayers Support to after-hours, and it has been recognized by the Taxpayers Rights Advocate for improvements to services provided to the public.
- **2024 year** has **3.9 million views/downloads**. Averaging **431K downloads/month** or **10,651 downloads/day**, which is **55% increase** over 2023 averages - **new record for 2024**.
- **2023 year** had over **2.5 million** downloads vs **2.9 million** in 2022, that is **-14.02%** of YoY total decrease, with a **208K/month** average downloads/views or **6,851 daily** downloads.

E-FORMS DEVELOPMENT OVERVIEW

The e-Forms forms support has grown from 85 forms in 2021/5 where e-Forms was released to 127 forms in 2025.

e-Forms Development Phase III (online form filing) project was placed on hold due to SDR 2.0 production priorities and fiscal years budgets constraints. In 2017 the development team has completed the e-Forms User Interface skins concepts (<http://caa-eforms-ux.moderniconcepts.com/>), PDF form fields analysis and PDF form filing analysis activities. e-Forms Test and Production portals are running using Microsoft Azure Datacenter model to provide the infrastructure for the e-Forms platform. e-Forms Phase III – online filing – would fit within an adjusted Microsoft Azure Datacenter model.

The e-Forms support team successfully fine-tuned our Azure Cloud System to achieve significant cost savings for the 2023-24 fiscal year without any loss in performance. Consequently, we reduced Azure Data Center costs for e-Forms from \$8,162 in 2022-23 to \$7,755 in 2023-24, resulting in a **5.2% reduction**. This follows a previous **reduction of 15%** in the prior fiscal year, culminating in a total reduction of **19.1% over two years**, surpassing our initial target of 10-15%, while in 10% YoY industry uptrend for azure data centers costs in last 2 years.

e-Forms development team completed a basic integration with e-Signature providers i.e., DocuSign or SignEx. This effort was completed in the last quarter of 2023-24 FY and was deployed to production 01/01/2025. This provides counties with the ability to provide taxpayers a link to county self-managed e-Signature Providers. Please contact e-Forms support via webmaster@capropeforms.org or phone 714-883-1030 to schedule a demo or a training session or to participate in our final User Acceptance Testing before release to all counties.

We

IMPACT ITEMS

- e-Forms Phase III (online form filing) development was placed on hold due to budgets constraints in 2017.
- The online forms filing analysis was completed. We have found some complex issues like form dependency on another form, attachments to forms, forms requiring multiple individuals' information and signatures etc. These items are being reviewed for effort and costs, however due to e-Forms Phase III (online form filing) Development being placed on hold, this effort was placed on hold also.
- **E-Signature basic integration was completed and released 12/31/2024. Please contact e-Forms support via webmaster@capropeforms.org or phone 714-883-1030 to schedule a demo or a training session or to participate in our final User Acceptance Testing before release to all counties.**
- The Modern iConcepts development team thoroughly analyzed .NET framework options to ensure compatibility with all third-party components and access to the latest supported versions. Some third-party vendors may not provide upgrade paths for newer .NET versions, so the team will select the version offering the highest compatibility. To minimize costs, the team recommends an initial minimal upgrade to .NET Framework Classic 4.8.1—still supported by Microsoft—before transitioning to the modern .NET platform as part of the e-Forms 2.0 effort.
- Out of scope work for 6 forms that use county specific income limits was completed and successfully deployed without any additional costs to CAA shared services.

E-FORMS OUT SCOPE WORK REQUIRED

Back at beginning of June 2024 we received 6 form updates - 4 to existing forms and 2 new forms as listed below:

Revisions to existing:

1. BOE-267-L, Welfare Exemption Supplemental Affidavit, Housing-Lower Income Households
2. BOE-267-L1, Welfare Exemption Supplemental Affidavit, Low-Income Housing Property of Limited Partnership
3. BOE-267-L3, Welfare Exemption Supplemental Affidavit, Households Exceeding Low-Income Limits – "Over-Income" Tenant Data (140% AMI)
4. BOE-267-L-A, Lower Income Households Family Household Income Reporting Worksheet (140% AMI)

New Forms:

1. BOE-267-L4, Welfare Exemption Supplemental Affidavit, Households Exceeding Low-Income Limits - "Over-Income" Tenant Data (100% AMI)
2. BOE-267-L-B, Lower Income Households Family Household Income Reporting Worksheet (100% AMI)

Initially, all forms presented a challenge due to dependency on county-specific income limits. We released them temporarily on 7/01/2024 but had to retract them immediately upon realizing that all six forms (four updates and two new ones) disrupted the current county income limit injection software module in e-Forms, module built in 2014 that does not allow for form additions (2 new forms). Additionally, a new set of income limits, AMI100% is required for all six forms to be injected per county, which is not supported by the current e-Forms software module as well.

As a result, the scope of work has encountered significant challenges and has been delayed. We have to re-build a new county income limits injection module in e-Forms to be flexible in adding new forms and also support an additional income (AMI 100%). We will release a temporary solution by 08/15/2024, however we will need to re-code the entire module for county income limits in both taxpayer portal and county portal. This effort was not anticipated in the fixed fee contract, and I am proposing the following:

1. **NO EXTRA COST to CAA**
 - a. Release a temporary limited solution
 - b. spread out the out-of-scope development effort over 4 months of EF support to avoid CAA extra costs.
 - c. Deploy the new county income limit module in 12/15/2024 as part of the regular operations and 2025 lien year release.

E-FORMS 1.0 MINIMAL UPGRADE

Microsoft currently supports two separate and incompatible .NET tracks. E-Forms 1.0 was built on the classic .NET Framework 4.5.2, which was the standard in 2014. In 2015, Microsoft introduced a new .NET track—now at version 9.0—which is not backward compatible. The latest version of the classic track, .NET 4.8.1, remains fully supported with no announced end-of-support date as of July 2024.

Migrating E-Forms 1.0 to the new .NET track would require triple the effort due to incompatibility. Therefore, Modern iConcepts recommends aligning this transition with the future development of e-Forms 2.0.

For FY 2025–26, Modern iConcepts recommends a minimal upgrade of the E-Forms 1.0 Taxpayer and County Portals to .NET Framework 4.8.x. This ensures continued stability and support under Microsoft's classic .NET lifecycle, extending the usable life of e-Forms 1.0 well beyond 2025.

CALIFORNIA ASSESSORS' ASSOCIATION

Board of Directors

As a cost saving, MiC team recommends to first conduct a minimum upgrade to .NET Framework Classic 4.8.1, version that Microsoft still supports for the foreseeable future, and later switch tracks to the new .NET track with e-Forms 2.0 development effort.

This upgrade costs a flat fee of **\$75,000** with 3 main efforts with individual deliveries and payments:

1. e-Forms 1.0 Azure SQL Database Upgrade to latest stable Azure SQL Database [1st PRIORITY]

- a. Database Data and Stored Procedures Clean Up, Configuring and Tuning
- b. Estimated Completion Date: **12/31/2025 if approved by 06/01/2024**
- c. Estimated Cost: **\$15,000**

2. e-Forms 1.0 Taxpayer Portal Web App Minimum Upgrade: [2nd PRIORITY]

- a. Upgrade from .NET 4.5.2 (Microsoft Support Ended) to .NET 4.8.x (Microsoft Open Support)
- b. Upgrade the Code Solution to the latest compatible version of Visual Studio
- c. Upgrade the 3rd Party Components to the latest compatible available components if allowed
- d. Estimated Completion Date: **12/31/2025 if approved by 06/01/2024**
- e. Estimated Cost: **\$35,000**

3. e-Forms 1.0 County Portal Web App Minimum Upgrade: [3rd PRIORITY]

- a. Upgrade from .NET 4.5.2 (Microsoft Support Ended) to .NET 4.8.x (Microsoft Open Support)
- b. Upgrade the Code Solution to the latest compatible version of Visual Studio
- c. Upgrade the 3rd Party Components to the latest compatible available components if allowed
- d. Estimated Completion Date: **12/31/2025 if approved by 06/01/2024**
- e. Estimated Cost: **\$25,000**

This system provides a statewide consistent on-line service for all taxpayers and county users. By providing this system we have enhanced how taxpayers can communicate and get services from Assessor departments now and into the future using modern technologies. This system by its use statistics is demonstrating taxpayers' interest and acceptance. **See Appendices A to K: e-Forms Usage Statistics.**

e-Forms are a major cost savings project for Assessors and BOE and a major shared service facility statewide. We hope you are taking advantage of the capability to save your taxpayers' time and reduce your department costs.

Thank you everyone on behalf of the Ad-Hoc Committee for your unwavering help and understanding. Our shared systems are stable, and we are moving forward.
